

CBLRA-BRKT-FT

Cable Retractor Mounting Brackets for FlipTops™

These mounting brackets are designed for use with Crestron® FlipTops™ and Cable Retractors. A single bracket accommodates up to three or four cable retractors depending on the FlipTop™ model (see specifications for quantity and compatibility). [Spacer inserts](#) are available to fill any unused cable retractor spaces.^[1]

Note: 600 Series FlipTops do not require these brackets.

Each CBLRA-BRKT-FT model is designed for mounting the cable retractors in a vertical orientation. In this orientation, the retractors hang from the bottom of the FlipTop box allowing them to be hidden in a pedestal leg or similar space directly beneath the FlipTop.

Horizontal orientation is also possible by adding the [CBLRA-BRKT-H](#) Horizontal Mounting Option^[2]. Using this option, the cable retractors can be attached to the underside of the tabletop.

Please refer to the [CBLR Cable Retractors spec sheet](#) for additional information.
