

MOTORIZED FIDO

MANUAL FIDO

The Fido series offers motorized and manual supports, always adjustable at an arc of 60° on the right and on the left, reclining from 0° to 10° according to the necessity. The special construction system of Fido, world-wide patented, keeps the TV always adjacent to the wall at least on one side. All the models of the series Fido can be equipped with a special chain for a quick wire cabling.
