

MonLines MLD400B Electrically Swiveling TV Lift Ceiling Mount, 400 mm Travel

Description

The MonLines MLD400B electrically swiveling TV lift ceiling mount with 400 mm travel combines a motorized 360° swivel function with mechanical height adjustment in a robust steel and aluminum construction. The telescopic column allows the profile height to be manually adjusted and fixed between 1000 and 1400 mm. The swivel movement is motorized, while the height is adjusted manually as required. The motorized swivel function allows the display to be conveniently positioned via app or RF remote control – ideal for living spaces, offices, gyms, and commercial environments. The mount is suitable for flat-screen TVs from 50 to 100 inches and supports a weight of up to 65 kg. An intelligent collision protection system detects obstacles during the swivel movement and automatically stops the motor. The tilt angle can be manually adjusted between +3° and -20°, ensuring an optimal viewing angle at all times.

Key features

Screen size:	50 to 100 inches
VESA standard:	200x200 to 600x400 mm
Load capacity:	65 kg
Lift height:	400 mm
Height:	1000–1400 mm
Mounting:	Ceiling
Color:	Black
Control:	App control and RF remote control
Included:	1800 mm
