

MonLines MLW675B2 TV Lift Electric TV Wall Mount

Description

MonLines has developed a stable and sleek TV lift. With a high load capacity of 100 kg and two very stable lifting columns, this MonLines MLW675B2 is considered a classic among electric TV mounts. This high-quality TV lift is particularly notable for its very low noise level and particularly smooth, stepless height adjustment. The electric wall mount can be easily mounted on the wall or integrated into furniture. If necessary, the TV can be retracted and extended from or behind a piece of furniture. The TV lift can be operated manually or by remote control from a maximum distance of 6 meters. The elegant and sleek design allows the lift to be seamlessly integrated into any living environment.

Displays up to 98 inches can be easily mounted on the TV wall mount. Popular applications include living rooms, conference rooms, meeting rooms, hotels, and boats. The sky's the limit!
