

## NOVUS TSS/DSS keyboard holder

You can use the TSS/DSS keyboard holder to stand your computer keyboard and mouse on and push them aside when they are not needed. In conjunction with a monitor support arm and TSS wall rail, it can be attached to the wall to save space. This enables you to use the keyboard while standing and gives you the flexibility of adjusting it at any time to suit your work situation. With a load-bearing capacity of up to 5 kg and measuring 640 x 172 mm, the support platform is suitable for large-size keyboards. The DSS keyboard holder can be attached to DSS and TSS columns. Comes complete with drop guard and 2 cable clips.

The product can be turned to either side and has the mentioned reach in mm.

The weight shows the load the product is allowed to carry.

Support platforms are available for universal support arms. The platform dimensions are specified in millimetres.

When used conventional.

This machine bears the GS approval of product safety.

Available in silver/ anthracite
