

TabLines TBS161 Height-Adjustable Tablet Floor Stand for 7–15 Inch Tablets

Description

The TabLines TBS161 Tablet Floor Stand is the ideal solution for securely and flexibly using tablets in public environments. Its integrated locking system with a high-strength adhesive mounting plate reliably protects the tablet against unauthorized removal. The sturdy base provides excellent stability and can be permanently bolted to the floor when required. With stepless height adjustment and 360° rotation, the tablet can be positioned ergonomically in either portrait or landscape orientation. The frameless mounting system is compatible with virtually all tablets from 7 to 15 inches, while the integrated cable management ensures a clean and professional appearance. Ideal for reception areas, trade shows, retail stores, hotels, restaurants, medical practices, and offices as an information display, check-in station, self-service kiosk, or presentation stand.
