

TecLines TNT006

Dual USB-C Flush-Mounted Tablet Power Supply, 60W Output

Description

The TecLines TNT006 is a powerful and compact power supply solution for permanently installed tablets, touch panels, and other USB-C devices. The dual USB-C flush-mounted power supply was specifically developed for concealed in-wall installation and is ideal for smart home controls, conference rooms, kiosk systems, or digital signage applications. Thanks to modern USB-C Power Delivery 3.0 technology, the power supply automatically adjusts the output to the connected device, ensuring fast, safe, and efficient charging. With up to 60W of output, even high-performance tablets and most laptops can be reliably powered or charged.

The two integrated USB-C ports allow two devices to be charged simultaneously. When used in parallel, up to 30W per port is available. The compact design enables nearly invisible installation behind wall-mounted tablets or monitors and fits into US single-gang and EU 86 flush-mount back boxes. Reusable connection terminals ensure quick and secure installation. Certifications including ETL, CE, FCC, and RoHS guarantee the highest safety and quality standards. Qualitätsstandards.

Key features

Suitable for:	TabLines TSG tablet protective enclosure & TWE in-wall tablet mount (not included)
Connection:	2x USB-C ports
Input voltage:	100–240 VAC, 50/60 Hz
Output power:	5V = 3A (15W), 9V = 3A (27W), 12V = 3A (36W), 15V = 3A (45W), 20V = 3A (60W)
Application:	Flush-mounted installation
Mounting:	Flush-mount back box can be mounted directly to the tablet in-wall protective enclosure / case
Dimensions (W x H x D):	70 × 53 × 35 mm
Cable length:	140 mm
Insulation:	1500V insulation, Class II
Color:	Black
