

## PFS 3504 Display interface strips 3D adjustable

The PFS 3504 adjustable display strip is part of a unique and flexible system that is ideal for video wall setups and in-line menu boards. With this modular concept, based on Connedit, you create a video wall solution for almost every set-up requirement. The video wall solution consists of interface bars (PFB 34xx) and one set of multi directional (3D) adjustable interface display strips (PFS 35xx) per display. Vogel's offers various lengths of interface bars and two different lengths of interface display strips, with fitment 400 mm and 800 mm.
