

REMOTE CONTROLLED WALL MOUNTS

LET YOUR FINGERS DO THE WALKING

- The two signature products from Vogel's, the Vogel's Glider® and TriMotor™ are part of the EMO™ series of remote controlled mounts.
- Especially for luxury custom install locations or high-end hotel rooms these are excellent products offering the end user a unique viewing experience.
- Both Glider and TriMotor have their own unique features.
- The Glider offers an innovative super smooth movement mechanism with the Auto Home feature which automatically moves to a preset position when the display is switched on and returns to the home position when the TV is switched off.
- The TriMotor offers a multi-directional movement with both turn and tilt functionality.

KEY USP'S RC WALL MOUNTS

- 1 Remote controlled
- 2 Unique movement mechanism in the Glider
- 3 "Auto home" automatically returns the display to the wall
- 4 Compatible with a learning universal remote control

"Auto home" automatically returns the display to the wall

Smart Movement Mechanism SMM®
