

TMS 303 RingO Flex Pack for iPad (2 & 3rd Gen.)

The holder for the new iPad (also fits the iPad 2) is especially designed with the new iPad in mind. It fits the iPad perfectly and is even 15% thinner than the original holder for iPad. The iPad with Holder is just 0,2 inch thicker than the original iPad alone. The smart design of the Holder brings out all the iPad functions, so you can use the HD-camera, connect the usb-connector or iPad Camera Connection Kit and you can easily attach Apple's beautifully designed magnetic Smart Cover.

TMS 303

RingO Flex Pack for iPad (2 & 3rd Gen.)

The Flex Mount offers the most flexible wall mounting solution for your tablet. Using Vogel's extensive experience with display brackets, this stylish and fully-adjustable arm mounts on the wall, and your iPad seems to float in the air. Move it to just where you want it, in the right place and at the right angle. With full tilt and swivel, this is the most stylish and flexible way to mount your tablet. The precision-engineered Flex Mount draws on Vogel's years of experience in flexible brackets for televisions, speakers and display screens. The Flex Mount folds back discretely, flush with the wall, or extends to that perfect position and angle to watch a film, read a book or cook a meal.

Features

- Tilt and turn functions guarantee optimal viewing position
